To Whom It May Concern

I am please to write this testimonial to support and recommend the work of Ken Toumey at Schooley Mitchell Telecom Consultants.

Ken and the Schooley Mitchell team have conducted a thorough analysis of two areas of our telecom expenses: wireless and an array of land lines associated with our remote locations and recent acquisitions.

The work that was done uncovered a great deal of savings for us, at about the 20% level and was in the tens of thousands of dollars. Before the work began, some of my colleagues and I made some predictions about the amount of savings that Ken and the Schooley Mitchell team might find for us. Suffice it to say, that the savings were about three times those early estimates.

Going forward Ken and his team will be monitoring our usage and continuing to recommend savings opportunities for us.

I can heartily recommend the Schooley Mitchell approach. We have seen only upside.

Thank You!
