To Whom It May Concern:

We engaged the services of Ken Toumey of Schooley Mitchell Telecom Consultants, and are very pleased with the results gained and services offered us over time.

Schooley Mitchell did a complete review of wired, wireless voice and data communications expenses. The result of that was recommendations that Ken and his team implemented that have saved our company over 30% in wired services and over 45% in wireless/mobile services.

Additionally, the Schooley Mitchell team has helped us with adds/changes/deletes and new phones all along the way. The work was detailed, and the recommendations were solid. The best part was that we did not have to do any of the hard work - that was all done by Schooley Mitchell, and we reaped great results.

If your organization has not had an independent, objective review of your communications expenses in a few years, I would strongly suggest you engage with Ken Toumey, and the Schooley Mitchell Team. I can highly recommend their work and value.

Sincerely,
