Ken Toumey of Schooley Mitchell has been a huge help in streamlining costs in our business. He was able to nearly half our phone bill and keep it reduced for over a year now. He also tracks and maintains our spending and if anything is out of alignment, he notifies us immediately.

Ken was also able to help me replace my phone when I mistakenly dropped and broke it. After a simple phone call I had a new phone, completely set up sent to me the next day. There was no additional charge for this service and he was more than happy to help me.

I would eagerly recommend Ken's services. He has been professional to work with and has saved us a considerable amount of money.

Thank you,
