Enlisting the service and expertise of Schooley Mitchell & Ken Toumey has proven to be an invaluable business decision and an easy one to make. Having spent years being continuously misled by and disappointed with verizon I was ready to switch companies, but didn't know where to start. Ken was able to explain the entirety of the process step by step in clear and simple detail and worked me through his suggested changes one by one. Ultimately he cut my telephone/internet bills in half and helped to make my Internet connection much faster. I couldn't possibly be more satisfied with his services and would not hesitate to recommend him to anyone.
